Shipping Methods

Percent Shipping

Enabled	Yes <input type="button" value="v"/>	[WEBSITE]
Title	Percentage Shipping Methods	[STORE VIEW]
Ship to applicable countries	All Allowed Countries <input type="button" value="v"/>	[WEBSITE]
Ship to Specific countries	Afghanistan Åland Islands Albania Algeria American Samoa Andorra Angola Anguilla Antarctica Antigua and Barbuda	[WEBSITE]
Displayed Error Message	This shipping method is currently unavailable. If you would like to ship using this shipping method, please contact us.	[STORE VIEW]
Sort order		[WEBSITE]

Please go to System -> Configuration -> Shipping Methods -> Percent Shipping. Here you can activate the percent-based methods, indicate title for percent shipping section on front end, specify countries to which the percent methods should be applied and the error message.

2. Creation of percent-based shipping methods

To add a new method please click 'Add Method' button.

The screenshot shows the Amasty Admin interface. The top navigation bar includes: Dashboard, Sales (highlighted), Catalog, Mobile, Customers, Promotions, Newsletter, CMS, Reports, System, and Get help for this page. A dropdown menu is open under 'Sales', listing: Orders, Invoices, Shipments, Credit Memos, Transactions, Recurring Profiles (beta), Billing Agreements, Terms and conditions, Tax, and Percent Shipping. An 'Add Method' button is visible in the top right. Below the menu, there are controls for 'Page 1', 'per page', and 'Total 2 records found'. A table displays shipping methods with columns for 'ID', 'Percent', 'Min. Value', and 'Max. Value'. The table contains two rows: one for 'Terms and conditions' (7.00, 20.00, 1000.00) and one for 'Tax' (5.00, 10.00, 300.00). A 'Manage Methods' button is located below the table.

ID	Percent	Min. Value	Max. Value
	7.00	20.00	1000.00
	5.00	10.00	300.00

To create and edit percent-based shipping methods please go to Sales -> Percent Shipping -> Manage Methods.

3. Specify percent rate, minimal and maximal rate

Method Options

General

Categories

Products

Method

Back Reset Save

For each method you can specify the method name and the percent of the order total, which will be the shipping price.

Optionally, you can indicate minimal and maximal shipping prices for this method as absolute numbers, not percent.

General

Name *	<input type="text" value="Express Mail"/>
Percent *	<input type="text" value="10"/>
Min. Value	<input type="text" value="30"/>
Max. Value	<input type="text" value="1500"/>

Flat rate conditions

Subtotal Less Than	<input type="text" value="200"/>
Flat Rate	<input type="text" value="15"/>

▲ Shipping price will be equal to the flat rate when the order subtotal is less than the value specified in the Subtotal Less Than field

4. How to set flat rate for orders with low subtotal

Method Options

General

Name *

Percent *

Min. Value

Max. Value

Flat rate conditions

Subtotal Less Than

Flat Rate

▲ Shipping price will be equal to the flat rate when the order subtotal is less than the value specified in the Subtotal Less Than field

You can also set a flat rate for orders with subtotal less than certain amount. According to these conditions, shipping price will be \$15 for all orders with subtotal less than 200.

5. Individual percent rate for categories

At the 'Categories' tab you can specify individual percent values for particular product categories. For example if you have a category with very large however light products, you could specify a separate percent value for this category. So shipping for such category will be calculated for example as 12% of order total, not 10.

Method Settings

Method

Categories

IDs:	<input type="text" value="26,8"/>	Percent:	<input type="text" value="12"/>	Base flat fee:	<input type="text" value="10"/>	<input type="button" value="✕"/>
IDs:	<input type="text" value="25,12"/>	Percent:	<input type="text" value="15"/>	Base flat fee:	<input type="text" value="20"/>	<input type="button" value="✕"/>

IMPORTANT. When indicating IDs of the categories, please make sure there are no spaces between commas and digits.

6. Base flat fee for categories

Method Options

General

Categories

Products

Method

Save

Categories

IDs:	<input type="text" value="26,8"/>	Percent:	<input type="text" value="12"/>	Base flat fee:	<input type="text" value="10"/>	<input type="button" value="✕"/>
IDs:	<input type="text" value="25,12"/>	Percent:	<input type="text" value="15"/>	Base flat fee:	<input type="text" value="20"/>	<input type="button" value="✕"/>

The base flat fee is added to the percent amount. So in this case shipping will be calculated as 10 + 12% of the product price. The base fee is counted for each product. So if there are three products from this category in the order, the base fee will be 30.

7. Individual percent and base flat fee for products

On analogy, at the 'Products' tab you can specify individual percent values for certain products. For example if you have products, that are shipped at a lower cost than others, you can indicate lower percent for them. So shipping for such products will be calculated for example as 8% of order total, not 10.

The screenshot shows a web interface for configuring shipping methods. On the left, a sidebar lists 'Method', 'Categories', and 'Products'. The main area is titled 'Method' and contains a 'Products' table. At the top right of the main area are buttons for 'Back', 'Reset', and 'Save'. The 'Products' table has two rows, each with an 'IDs' field, a 'Percent' field, and a 'Base flat fee' field. The first row has IDs '151,122', a percent of '8', and a base flat fee of '3'. The second row has IDs '148,75', a percent of '7', and a base flat fee of '5'. Each row has a red 'X' button to its right. Below the table is an 'Add' button with a plus sign.

IDs	Percent	Base flat fee
151,122	8	3
148,75	7	5

IMPORTANT. As with categories, when putting IDs of the products, please make sure there are no spaces between commas and digits.

On analogy with categories, you can set a base fee, which is counted for each matching item.

8. New methods on checkout page

Checkout

1 Checkout Method

Shipping method step of the checkout. Above the block with percent shipping methods customers will see the title that you indicated at the configuration page.

method

Percentage Shipping Methods

- Ground Mail \$86.00
- Air Mail \$122.50
- Express Mail \$175.00

Flat Rate

- Fixed \$10.00
